## B CORP CERTIFICATION

Through this document, Sistema B Chile confirms that **Viña Cono Sur** is a certified B Company since **January 1st 2021**.

The certification is valid for three years, meaning it expires **January 1st 2024**, the date on which the company must carry out the recertification process, complying with all the requirements established for that purpose.

Certified B Corporations go through a rigorous evaluation and validation process, utilizing the B Impact Assessment (BIA), which measures the positive impact of the company in areas of corporate governance, workers, environment, community and business model.

Furthermore, B Corps legally commit, through changes in their internal statutes, providing legal protection to the directors and founders of the company by considering the interest of all stakeholders and not just the company shareholders when making decisions.

B Corps belong to a global movement seeking to redefine the concept of success in the economy, using the force of the market to provide social and environmental solutions.

Yours Faithfully,  
*Regards*

## **B CORP CERTIFICATION**

---

**Santiago, Chile. December 19th, 2023.**

Through this document, Sistema B Chile confirms that **Viña Cono Sur S.A.** is a certified B-Corp company since **January 1st, 2021.**

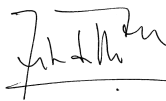

The certification is valid for three years, the date on which the company must carry out the recertification process. The company is currently in the **recertification process**, so its seal is still valid.

Certified B companies go through a rigorous evaluation and validation process, utilizing the B Impact Assessment (BIA), which measures the positive impact of the company in areas of corporate governance, workers, environment, community and business model.

Furthermore, B Corps legally commit, through changes in their internal statutes, providing legal protection to the directors and founders of the company by considering the interest of all stakeholders and not just the company shareholders when making decisions.

B Corps belong to a global movement seeking to redefine the concept of success in the economy, using the force of the market to provide social and environmental solutions.

Yours Faithfully,  
Regards
